## Investment, Governance and Engagement Committee

Meeting – 19<sup>th</sup> April 2021 Item 5 Paper C

## **CONSULTATIONS**

To consider whether to recommend the Board responds to the following consultations – either in full or part.

There are a number of current live consultations that it would be useful for the Board to respond to, either in full or part. A summary of each of the consultations is below, with a recommendation about the nature of a response from the Board.

- 1. HMT Review of the UK funds regime a call for input (closing date April 20<sup>th</sup> 2021) <a href="https://www.gov.uk/government/publications/review-of-the-uk-funds-regime-a-call-for-input">https://www.gov.uk/government/publications/review-of-the-uk-funds-regime-a-call-for-input</a> "This call for input is wide-ranging, covering direct and indirect tax and relevant areas of funds regulation. This reflects the fact that firm- and fund-level decisions are taken by reference to the overall commercial, tax and regulatory environment for funds. It will also consider broader issues important to the success of the regime such as the roles of industry and government to make the UK regime a global success, for example through trade promotion."
  - Recommendation The Board should respond in part, reminding HMT of the potential impact of any changes on LGPS funds. Funds have been asked to respond to the Secretariat to enable us to compile a response.
- 2. TPR consolidated code of conduct (closing date May 26<sup>th</sup> 2021) <a href="https://www.thepensionsregulator.gov.uk/en/document-library/consultations/new-code-of-practice">https://www.thepensionsregulator.gov.uk/en/document-library/consultations/new-code-of-practice</a> "This consultation focuses on the draft content for the first phase of our new code of practice. The new code consists of 51 shorter, topic-based modules. The new code will replace 10 of our existing codes of practice. These mainly deal with the governance and administration of pension schemes. The consultation also incorporates changes introduced by the Occupational Pension Schemes (Governance) (Amendment) Regulations 2018. These relate to effective systems of governance and the own-risk assessment."

## Investment, Governance and Engagement Committee

Recommendation – Indications are that some Funds and Pools will respond directly to TPR's consultation; the Board should also respond on relevant points.

3. DWP call for evidence on social impact investment (closing date June 16<sup>th</sup> 2021) <a href="https://www.gov.uk/government/consultations/consideration-of-social-risks-and-opportunities-by-occupational-pension-schemes">https://www.gov.uk/government/consultations/consideration-of-social-risks-and-opportunities-by-occupational-pension-schemes</a> "A 12-week Call for Evidence launched today will seek views on how pension scheme trustees understand social factors and how they are included in their Environmental, Social, and Governance (ESG) policies. Social factors can present a wide range of potential risks to a scheme's investments, but they can also present lucrative investment opportunities. Responses will help inform Government on the steps needed to ensure that trustees are better able to meet their legal ESG obligations. This will help increase policymaker and industry understanding of what is currently being done, and what more could be done, to ensure both the risks and opportunities presented by social factors are adequately considered by pension schemes."

Recommendation – The Board should task the RIAG with considering how to respond to this call for evidence.

4. BEIS audit and corporate governance (closing date July 8<sup>th</sup> 2021) <a href="https://www.gov.uk/government/consultations/restoring-trust-in-audit-and-corporate-governance-proposals-on-reforms">https://www.gov.uk/government/consultations/restoring-trust-in-audit-and-corporate-governance-proposals-on-reforms</a> (just the section on stewardship code) "In this white paper we're seeking views on proposals to strengthen the UK's framework for major companies and the way they are audited. The proposals set out how companies should report on their governance and finances, how reports should be audited, how audit and the audit market should change, and how these should be overseen by a new regulator. The objectives of these reforms are to restore public trust in the way that the UK's largest companies are run and scrutinised; ensure that the UK's most significant corporate entities are governed responsibly; empower investors, creditors, workers, and other stakeholders by giving them access to reliable and meaningful information on a company's performance; and keep the UK's legal frameworks for major businesses at the forefront of international best practice."

Recommendation – only the section on the Stewardship Code is relevant in this consultation; the Board could ask the RIAG to draft a response.

## Investment, Governance and Engagement Committee

5. In the "Investing with Purpose: placing stewardship at the heart of sustainable growth" report from the Asset Management Taskforce, dated November 2020, there were three recommendations (see pages 12 – 13 and 54 – 56) which apply to the LGPS. These were recommendations 16 – the establishment of a stewardship council by June 2021; recommendation 17 – the establishment of a stewardship regulators forum during 2021; and recommendation 18 – funds and pools should become signatories to the stewardship code. The FRC were tasked to work with relevant asset owners during 2021 and beyond on recommendation 18.

We will bring the committee up to date on the latest progress against each of these recommendations.
